Why choose **IMDesign** aluminum cabinets for your home or office?

Aluminum is: a unique metal and the metal of choice for leading designers, architects and engineers, all of whom are looking for a material which combines functionality and cost-effectiveness with forward looking form and design potential.

Aluminum is: strong, durable, flexible, impermeable, lightweight and corrosion-resistant.

Aluminum is:

- ✓ **Non-toxic** (no formaldehydes or glues, no off-gassing and no VOCs)
- ✓ **Fireproof, waterproof, weatherproof**
- ✓ **Recyclable:** Aluminum has a high scrap value as a recyclable metal. Its reusable cycle is indefinite and aluminum retains all its superior qualities. These advantages are of particular importance in meeting environmental and economic criteria. Nearly 75% of all aluminum ever produced is still used today. IMDesign's aluminum profiles are extruded from 25% recycled aluminum

Aluminum is ideal for:

- ✓ **Outdoor kitchens and furniture**
- ✓ **Medical clinics**
- ✓ **Dentists offices**
- ✓ **Residential or commercial use**
